[Despatch Abstract.]

Malaria South Kanara Dt. Puttur Taluk - Scheme of anti malarial measures. Continuance for one year with additional Staff - Sanctioned

From

Dr. R.M.Mathew, D.P.H., D.T.M.& H., M.R.C.P.,
Director of Public Health,
Madras.

To

The Secretary to Government,
Education & Public Health Dept.,
Madras.

MAR 1949

S.No 50-2 Mal dated 28.2.1949.

Sir,

Sub:- Malaria - Antimalaria Scheme - Puttur Taluk South Kanara Dist. - Continuance - Proposals.

16376
1.8 394

In G.O. No. 386 P.H. dated 10.2.48, Government sanctioned a scheme of antimalarial measures in selected villages of Puttur Taluk and sanctioned the employment of the following staff for a period of one year from the date of appointment.

IInd class Health Officer.	1.
Entomological Assistant.	1.
Typist,	1.
Health Inspectors.	4.
Field Assistants.	15.
Laboratory Assistant.	1.
Peons.	5.
Coolies.	72.

The Health Officer took charge of the scheme on 24.3.48 and the present sanction therefore expires on 23.3.49.

In G.O. No.386 P.H. dated 10.2.48, Government had also stated that as malaria is reported to be endemic in the villages of Hebri, Chara, Nadpal and Kanchur in Karkal taluk, the antimalarial measures should be extended to these villages in the succeeding year.

Antimalaria measures were first organised in 31 villages of Puttur taluk during the first half of the year and subsequently the measures were extended to 67 villages in the same taluk. During the second year of operations, the measures will be extended to more villages in Puttur taluk and also to ~~the~~ Selected villages in Karkal taluk including those ~~in Karkal taluk~~. To attend to the additional work as outlined above, the employment of the following staff is necessary in addition to the existing staff:

Health Inspector	1.
Peon.	1.
Field Assts.	3.
Coolies.	18.

The following work was done during the year.-

1) Malaria control by DDT residual spraying in 31 villages towards the close of the last transmission season and in 67 villages from the commencement of the present transmission season in January 1949.

2) Investigations and recording of spleen rates etc. in 63 villages.

3) Distribution of antimalaria drugs in 26 villages to 7318 fever cases.

pto.

5 The whole area is hilly with dense forests with tropical sub-montane features with the villages and houses scattered widely. Equipments have therefore to be transported from Mangalore station in the first instance and then from Puttur to various outlying places of operation. The need for a motor transport is keenly felt to secure maximum efficiency in the work. At present public conveyances are arranged for transport purposes and leads to much waste of time of the staff employed. This is neither dependable nor economical. I consider that the provision of a motor transport is essential for the successful working of the scheme. I therefore request that Government may be pleased to sanction the continuance of the scheme for a period of two years from 24.3.49 and the employment of the following staff.-

IInd class Health Officers.	1.
Entomological Asst.	1.
Typist.	1.
Health Inspectors.	5.
Field Assts.	18
Laboratory Asst.	1.
Peons.	6.
Coolies.	90 (at market rates or at Rs.19 plus Rs.18 Dearness allowance whichever is less).

6 Sanction may also be accorded to the incurring of the following expenditure per annum.-

DDT, Insecticides, solvents and emulsifiers	Rs.50,000.
Travelling allowance.	8,500.
Equipments.	2,000.
Motor Transport vehicle.	12,000.
Other contingencies including Office Contingencies ~~including Office Contingencies~~, rent, furniture and maintenance charges of motor vehicle.	10,000.
	70,500

In this connection, it is submitted that the cost of DDT and other solvents etc. vary from time to time and the provision now made is based on the present prices.

Sir,

R.No.S.50-3.Mal. dated 4-4-49.

SUB:- Malaria - Antimalaria Scheme - Puthur taluk - South Kanara District - Continuance - Proposals.

27037

Ref:- Government Memo.No.16376 E1/49-1 P.H., dated 7-3-49.

I forward herewith a copy of letter L.Dis.No.6440-A5-49 dated 23-3-49 of the Special Officer, District Board, South Kanara, stating that the District Board is not in a position to meet 2/3 of the cost of the scheme in 1949-50 and requesting Government to meet the entire cost from Provincial funds. In the circumstances stated and in view of the necessity for malaria control measures I request that Government may be pleased to sanction the continuance of the scheme from Provincial funds.

For Director of Public Health, Madras.

End.

A.R.5/4.

Copy of letter L.Dis.No.6440-A5-49 dated 23-3-49 from the Special Officer, District Board, South Kanara to the Director of Public Health, Madras.

Sub:- Malaria - Anti malaria scheme - Puthur taluk - Continuance of the scheme in 1949-50 - inability to meet 2/3 of the cost - intimated.

Ref:- Your 17626-1.Mal., dated 11-3-49.

It is only with great difficulty that this District Board with its unsound financial position could find funds to provide for the payment of non-recurring contribution of Rs.25,000/-towards the cost of the antimalaria scheme in Puthur taluk for the year 1948-49.

2. According to the proposals contained in your S.No.50-2-Mal., dated 28-2-1949, the total cost of the scheme for the year 1949-50 can be estimated at about one lakh and the 2/3 of the cost for which you have requested me to inform you whether the District Board is in a position to meet, will be somewhere in the neighbourhood of Rs. 70,000/-. In this connection, I have to inform you that no provision has been made for the purpose in the budget estimate of the Board for 1949-50 which closes only with a surplus of only Rs.9,670/- without providing for the statutory balance.

3. The finances of the Dt. Board are not satisfactory. Several new schemes could not be taken up for want of sufficinet funds.

In the circumstances, I have to inform you that this District Board is not in a position to meet 2/3 of the cost of the scheme in 1949-50 and to request that the Government may be moved tomeet the entire cost from their own funds.

Sub: Malaria – South Kanara District – Puttur Taluk – Scheme of anti-malarial measures – Continuance with additional Staft

Malaria is highly endemic along the eastern foot-hill region of the South Kanara District. The D.P.H considered that malaria control measures were necessary for this area in the interests of public health and land development and that a comprehensive anti-malaria scheme might be introduced in selected villages of Puttur Taluk, the scheme being extended gradually to other taluks in accordance with the degree of endemicity of malaria in those taluks. He accordingly submitted detailed proposals for a scheme in selected villages of Puttur Taluk. In G.O.No 386 P.H dated 10.2.48 the Govt approved his proposals and sanctioned the following Staft together with necessary expenditure on equipment, contingencies, larvicides etc.

Staft

(1) One Second class Health Officer
(2) One Entomological Asst
(3) One Lower Division clerk
(4) Four Health Inspectors
(5) Fifteen Field Assistants
(6) One Laboratory Asst
(7) Five Peons
(8) Seventy-two coolies.

B

2. In sanctioning the scheme the Govt also pointed out that endemic conditions of malaria prevailed in certain villages in Karkal Taluk also and requested that D.P.H to submit proposals in this second year of operations for extension of control measures to these areas also

2. The D.P.H has now applied for the further Continuance of the Scheme and has submitted

P.T.O

Submitted proposals for the extension of control measures to some more villages in the Puttur Taluk and also to other villages outside the Taluk referred to. He considers that to cope with the additional work involved in extending the scheme the following additional staff and expenditure are quite necessary.

Staff.

(1) One Health Inspector
(2) One Peon
(3) Three Field Assistants
(4) Eighteen coolies

Expenditure.

	Recg	Non-recg
D.D.T., Insecticides & Emulsifiers	50,000	
Travelling allowance	8500	
Equipment		2000
Motor transport		12,000
Contingencies. Office contingencies, Rent, furniture, Maintenance charges of the van	10,000	

He also considers that in view of the hilly nature of the country with villages and houses scattered widely apart the provision of a motor transport is essential for the successful and efficient working of the scheme. The total estimated cost of the scheme taking into account the additional expenditure on staff and motor transport is Rs 82,000 recurring and Rs 12,000 non recurring.

3/ Schemes of anti-malarial measures should be ordinarily carried out by the local bodies concerned with the help, if necessary, of one third grant from Govt. As the South Kanara Dt Board was not in a position to meet any portion of the cost in 1948-49 the scheme was carried out by Govt themselves. The Board is not in a position to meet any portion of the cost of the scheme during 1949-50 also. As the scheme is, however, considered to be essential the E&P. H Deptt have proposed that it may be carried out by the Govt at their own cost in 1949-50 also as in 1948-49. The finance dept have agreed to this proposal.

4/ As the proposal is on a 'New Service' and as it is considered that the observance of the usual

P.T.O.

usual financial procedure will take considerable time ~~to sanction the scheme~~ involving delay in the ~~appointment~~ sanctioning the release of additional staff and the starting of anti-malarial measures. The above procedure has been waived with the approval of the Hon'ble HM (Fin) and HMr and orders have been issued sanctioning the proposal.

The above note is circulated for information.

Malaria is highly endemic along the eastern foothill region of the South Kanara District. The Director of Public Health considered that malaria control measures were necessary for this area in the interests of public health and land development and that a comprehensive scheme of anti malarial measures might be introduced in selected villages of Puttur Taluk, the scheme being extended gradually to other talukas in accordance with the degree of endemicity of malaria in those talukas. He accordingly submitted detailed proposals for a scheme in selected villages of Puttur Taluk and ~~the Govt vide G.O No 386 P. H d 10-2-48~~ the Govt approved his proposals, ~~sanctioning necessary staff and expenditure.~~

In sanctioning the scheme, the Govt ~~also~~ pointed out that endemic conditions of malaria prevailed in certain villages in Karkal Taluk also and requested the D.P.H to submit proposals in the second year of operations for the extension of the control measures to these areas also.

P.T.O

3. The D.P.H accordingly submitted proposals for the extension of control measures to some more villages in the Puttur Taluk and also to other villages outside the taluk referred to. He considered that to cope with additional work involved in extending the Scheme the following additional staff and expenditure were quite necessary.

Staff.	Recg.
(1) One Health Inspector	12000
(2) One Peon	
(3) Three Field Assistants	
(4) Eighteen Coolies	

Expenditure	Recg.	non. recg
~~DDT~~, insecticides, Emulsifiers		50000
Travelling allowance	8,500	
Motor Transport	8	12,000
Contingencies	10,000	
Equipments	2,000	

He also considered that in view of the hilly nature of Country with villages & houses scattered widely apart the provision of a motor transport was essential for the successful and efficient working of the Scheme. The estimated cost of the Scheme including the provision for the additional staff and a motor transport is Rs 82,000 re curring and Rs 12,000 non. recurring. The Govt have sanctioned the continuance of the scheme with the additional staff.

As the expenditure on the scheme is on a 'new service' a token sum of Rs 100/- is included in the Supplementary estimate. The balance of the expenditure will be met from the savings within the grant if available or by obtaining a Supplementary Grant from the Legislature in due course.

Please see the D.P. H's letter at pp 1-2 cf and page 7 cf

2 The Govt approved in G.O No 386 P.H dated 10.2.48 the scheme of anti malarial measures in selected villages of Puttur Taluk, South Kanara District and sanctioned the employment of the following staff for a period of one year with effect from the date of appointment

Staff (1) One Second class Health Officer
(2) One Entomological Asst.
(3) One ~~Typist~~ U.D. Clerk.
(4) four Health Inspectors
(5) Fifteen Field Assistants
(6) One Laboratory Assistant
(7) Five Peons
(8) Seventy Two Coolies.

They also sanctioned the incurring of the necessary expenditure on equipments, Contingencies Insecticides etc in connection with the above scheme. As the Health Officer for the Scheme is reported to have joined duty on 24.3.48 it may be taken that the sanction for the scheme expired on 23.3.49.

3 The D.P.H has now submitted proposals for the further continuance of the scheme for a period of two years from 23.3.49. and has stated that during 1949-50 the area of Control operations is going to be extended as per his original proposals and also with reference to P. T.O.

orders in para 5 of the G.O. mentioned above. He has given at 'X' on page 1/c an account of what has been done so far (during 1948-49) in the field of malaria control in Puthur Taluk and what is proposed to be done in 1949-50. He states that as already ordered in para 5 of G.O. cited, the control measures will be extended in 1949-50 to selected villages in Karkal Taluk including the villages of Hebri, Chara, Nadpal and Kaikkar besides ~~measures being extended to~~ other areas in Puthur Taluk itself and that for attending to the additional work referred to some more additional staff will have to be employed. He considers that besides the employment of the following additional staff a motor transport is also essential for the successful working of the scheme for the reasons explained in para 5 of page 1/c.

Add staff.

(1)	Health Inspector	1
(2)	Peon	1
(3)	Field Assistant	3
(4)	Coolies	8.

The extra cost involved on account of the employment of additional staff will be about Rs 11,000 and that on account of the motor transport will be about Rs 12,000 roughly. In the circumstances explained by the D.P.H ~~in~~ the necessity for the ~~employment of the above add staff and a~~ ~~para 5 of his letter at page 1/c the necessity~~ ~~for the proper use of a~~ motor transport for the scheme may be accepted. The details of expenditure proposed to be incurred on equipment and contingencies ~~in connection with the scheme~~ during 1949-50 are at 'B' on p 2/c. The total estimated cost of the scheme including staff about during 1949-50 works out to Rs 1,23,000 recurring and Rs 12,000 non recurring.

4 As regards the financing of the scheme during 1949-50 the D.P.H has consulted the S.O. South Kanara

Cost on account of existing staff 60,000
Add staff — 11,000
Expenditure — 71,500
143,1

P.T.O

South Kanara District Board to know whether the Board will be in a position to meet its usual share of 2/3rd of the cost. The S.O. has made it clear that the Board cannot under the present state of its finances meet any portion of the cost of the scheme in 1949-50. and has requested Govt to meet the entire cost from Provincial funds. The D.P.H has endorsed the Dt Board's request. In Case it is found that the Dt Board Cannot meet any portion of the Cost of the scheme as stated by the Spl Officer the scheme will have to be carried out by Govt at their cost as in the last year - L.A may be requested to examine the financial position of South Kanara Dt Board & state Whether it Cannot meet any portion of the cost of the scheme during 1949-50.

ASSISTANT SECRETARY TO GOVERNMENT
32258
28 APR 1949
EXECUTIVE AND PUBLIC HEALTH DEPARTMENTS

Please see the L.A. Deptt note on pp 3-4 above. They state that the finances of the South Kanara D.B. Board during the current year (1949-50) are unsatisfactory and that the Board in the circumstances cannot meet any portion of the cost of the Puttur Anti-malaria scheme. If at all the scheme is to be continued there is no other alternative except for the Govt to carry out the same at their own cost. ~~in view of 'X' on page~~ for orders whether the scheme may be carried out during 1949-50 at Govt cost as in 1948-49.

M

Fin may see no for remarks.

3.5

Finance (F III)

P.Hrs 16376/49.3.E.1

4/5/49

SENIOR ASSISTANT SECRETARIAT FINANCE DEPTT
4 MAY 1949
29543

motor transport at an estimated cost Rs 12,000 roughly. The financial implications of the proposals will be as follows.

Recurring :-

Addl Staff	Rs 12,100
DDT, Insecticides etc.	Rs 50,000
T.A.	Rs 8,500
Equipments	Rs 2,000
Other Contingencies	Rs 10,000
Total	Rs 82,600 p.a.

Non-Recurring :-

Purchase of a Motor Transport Vehicle } Rs 12,000

Ordinarily, the Govt meet 1/3 of the cost of the anti-malarial operations carried out by a local body, the remaining 2/3 being met by the local body concerned from its funds. As the South Kanara Dt. Board was not in a position to meet its share of the cost, the Govt sanctioned the Puttur Anti-malarial Scheme in the South Kanara Dt at their own cost for a period of one year in the first instance now the Special officer of the Dt. Board, South Kanara, as well as the L.A. Asst have stated that the Board is not in a position to meet any portion of the cost of the proposed anti-malaria Scheme. In view of this position E.H. have stated that there is no other alternative except for the Govt to carry out the Scheme at their own cost. and they have invited the remarks of this Dept on this point.

2/ The progress of the work carried out by the Staff on this anti-malarial Scheme

has
during the year 1964-65 ~~has~~ been summarised at X ante I C.F. It seems that a Scheme started by Govt at an estimated Cost of Rs 57,000 recurring and Rs. 20,000 non-recurring during 1964-65 cannot be stopped this year for the reason that the local body concerned viz., the ~~A~~ Taluk Board South Kanara, is not in a position to meet its share of the cost on the Scheme. The progress so far achieved by this anti-malarial measures as well as the expenditure incurred upon it will be a waste if the Scheme is discontinued in the middle. In view of these considerations Finance may agree to the Continuance of the anti malarial scheme in the Puttur taluk in South Kanara Dt (on a wider area) with the addl staff proposed at A (which seems to be reasonable) ante 2 above. The Scheme may be Continued for a further period of one year from 1-3-1965 and the position may be reviewed thereafter. The addl staff proposed at A ante 2 above may be sanctioned for a period of one year in the first instance.

3/ In the circumstances explained by the D.P.H at K ante 2 C.F. Finance may agree to the purchase of a motor transport vehicle at a cost of Rs 12,000 roughly. The other items of recurring expenditure are not susceptible of any scrutiny & may be agreed to in Finance.

4/ As this proposal involves the purchase of a motor vehicle (addl machinery) at an estimated Cost of Rs 12,000 roughly and increased expenditure under the items, the scheme will have to be treated as a

of 36 C.F. (k

with reference to the instructions in para 6 (3) (b) of the introductory note in the Pamphlet "Rulings of the Madras Public Accts Committee", (New Service Pamphlet).

E.P.H. may be requested to follow the new procedure. The proposal should also be placed before the Standing Fin. Committee and the Cabinet as the addl. expenditure on staff involved exceeds the limits of Rs. 5,000 per annum vesting (Cf. portion 'M' on p. 5 above)

of E.P.H. concern in the scheme may adopt the Short-Circuit procedure passing by the Fin. Branch

E.P.H.

Please see the Finance Deptt note on pp 4–7 above

2/ The Case relates to the proposal for the continuance during 1949-50 of the scheme of anti-malarial measures sanctioned in Govt Memo 386 P.H dated 10.2.48 for selected villages of Puttur Taluk in South Kanara District with some additional staff and the extension of the area of control operations in Puttur Taluk as well as in villages selected outside the Puttur Taluk.

3/ At present, the following staff is employed for the scheme of anti-malarial measures in selected villages of Puttur Taluk and an expenditure aggregating to Rs. 29,000 is being incurred.

(1) One Second Class Health Officer
(2) One Entomological Assistant
(3) One Typist

(4) four Health Inspectors
(5) fifteen Field Assistants
(6) One Laboratory Assistant
(7) Five Peons
(8) Seventy-two Coolies.

Control measures have been ~~so far~~ undertaken in ~~only~~ 67 villages of Puttur Taluk and with the existing staff it is proposed to continue these operations in 1949-50. para 3, p 1 of

4. As the Govt have ordered in Go No 386 P.H dated 10.2.48 that during the second year of operations the control measures should be extended to the villages of Hebri, Chara, Nadpal, Kaukhur in Karkal Taluk, the D.P.H has accordingly submitted proposals ~~therefor~~. He has stated that an additional staff of one Health Inspector, one peon, three Field Assistants and eighteen Coolies will be necessary for the extension of anti-malarial measures to ~~some~~ more villages in Puttur Taluk and Karkal Taluk including the villages mentioned above. He also states that to secure success and maximum efficiency in working the scheme a motor transport is essential. The total estimated cost of the scheme is Rs 82,600 recurring and Rs 12,000 non-recurring. para 5, p 39 of (F) 2 on p 1 of para 3, p 1 of K in para 5, i 2: M on p 5 and N on p 5.

5. Schemes of anti-malarial measures should ordinarily be carried out by local bodies concerned with the help, if necessary, of one-third grant from the Govt. As the South Kanara ~~D~~ Board was not in a position to meet any portion of the cost of the scheme in 1948-49 the scheme was carried out entirely at Govt cost. The Board is unable to meet any portion Vide p. 38.

P.T.O.

Of the cost of the scheme even in 1949-50. As it is essential to continue the scheme this deptt Minute Consider that the entire cost in 1949-50 also should be borne by Govt as in 1948-49. Finance Minute have agreed to the proposal to continue the scheme with additional staff and expenditure as proposed for 1949-50. They have also Minute agreed to the purchase of a motor transport for the scheme.

6. As regards the financial procedure to be followed in this case, finance deptt suggest that the scheme was to be treated Minute as a 'New Service' and that the proposal should be placed before the S.F.C and the Cabinet. They have also suggested that if the scheme is considered to be urgent Minute the short circuit procedure may be adopted. If the elaborate 'New Service' procedure is to be followed it may take considerable time to sanction the scheme and the additional staff and the anti-malaria operations may be delayed and even rendered impossible after the onset of monsoons which will commence by June. In the circumstances it is submitted that the scheme may be treated as a very urgent one. The short circuit procedure may be followed and necessary orders sanctioning the proposals issued immediately.

See note on page 3 ante

The case may be circulated to HM(Edn), HM(Fin) and HDr for orders as to whether the 'new service' procedure may be waived in ~~and the short circuit procedure followed in the~~ case. And the scheme sanctioned

16/5/49

16/5/49

17/5/49

Approval for continuing the anti malarial scheme in the South Kanara district at a cost of Rs 82,000 recurring and Rs 12,000 non-recurring may be accorded. As in the previous year, Government will have to meet the entire cost of the scheme as no contribution can be expected from the District Board which is running with a deficit. The scheme has been expanded this year according to the directions of Government and is a most essential one in order to reclaim to cultivation large areas which are now abandoned on account of the heavy incidence of malaria.

H.M.(Edn) ✓ The continuance of the anti-malarial operation is necessary 17/5/49 19/5
